

# KEY MESSAGES

**The access to quality health care in our community is being threatened.**

A negative and destructive environment in our local courts will ultimately lead to:

- **Reduced access to quality health care**
  - **A shortage of medical specialists**
  - **Higher healthcare costs**
  - **Fewer jobs in our community**
- 

## **WHAT CAN BE DONE?**

We're asking the community and its leaders to:

- **Become more aware** of and sensitive to the impact of these types of legal actions.
- **Work for medical liability reform** that balances the individual's right to legal action with the community's need for quality medical care.
- **Use their influence** to discourage reckless attacks on the doctors and other healthcare professionals who take care of us.
